

IMPLEMENT A **PROVEN MATH SOLUTION** FOR **ABOUT THE COST OF A TEXTBOOK**

NEW SCALED PRICING ANNOUNCED FOR THE I CAN LEARN® PROGRAM

If you are looking to **increase student math achievement**, the I CAN Learn® Program is now offering new site license pricing designed to meet the demands of this current funding environment. With features you won't find anywhere else, our interactive software focuses on proficiency so your students gain a true mastery of mathematics. And with **over 500 lessons offering grade-level instruction correlated to the Common Core Standards**, we've got your state and district requirements covered.

Four Reasons for using the I CAN Learn® Program:

➤ **Technology that Caters to Modern Learners and their Needs**

Computer-Aided Instruction engages today's tech-savvy students and allows for effective blended learning.

➤ **Value**

Site license purchase includes remote access for students, on-site teacher trainings, and digital textbooks. Automated reports, diagnostic assessments, and classroom management software delivers incredibly high value for every dollar spent.

➤ **Ease of Implementation**

The program's technical requirements make it an easy fit for typical IT infrastructures. Technical requirements can be provided upon request.

➤ **Scientifically Based Research**

The U.S. Department of Education's What Works Clearinghouse awarded this program its highest rating of "Positive Effects"
